# Correction to: Core Rehabilitation Outcome Set for Single Sided Deafness (CROSSSD) study: protocol for an international consensus on outcome measures for single sided deafness interventions using a modified Delphi survey

Roulla Katiri<sup>1,2,3</sup>, Deborah A. Hall<sup>1,3,4</sup>, Nora Buggy<sup>1</sup>, Nicholas Hogan<sup>1</sup>, Adele Horobin<sup>1,5</sup>, Paul van de Heyning<sup>6,7</sup>, Jill B. Firszt<sup>8</sup>, Iain A. Bruce<sup>9,10</sup> and Pádraig T. Kitterick<sup>1,3,5\*</sup>

## Correction to: *Trials*

<https://doi.org/10.1186/s13063-020-4094-9>

Following the publication of our article [1], the authors have notified us of a typo in the third bullet point of the Consensus Criteria section.

- Original phrase:

“For outcomes in which less than 50% of the participants in all stakeholder groups scored 1–7 on the round 2 analysis (...)”

- Corrected phrase:

“For outcomes in which less than 50% of the participants in all stakeholder groups scored 7–9 on the round 2 analysis (...)”

Also, the link included in the Funding section, right after “the 15th International Conference on Cochlear Implants and Other Implantable Auditory Technology” was removed.

The original article has been corrected.
