

Acknowledgement to the Reviewers

Built Heritage uses a blind-peer-review system to evaluate the quality, validity, and relevance of scholarly research. The process aims to help the Editorial Team in the selection of materials for publication, at the same time providing the authors constructive feedback from relevant experts, which they can use to improve their work and achieve the highest standard possible.

The search for the most qualified referees for each manuscript and the management of communication during the peer-review process is a fundamental part of the work of the team of *Built Heritage*, with the final goal to provide the authors the most qualified editorial service for their work. As a means to acknowledge the important role of our referees, *Built Heritage* will publish in the last issue of each volume their names and affiliations. We are grateful for the rigorous work of the following scholars who cooperated in the first volume of *Built Heritage* performing this task:

List of Reviewers 2017
