## INFORMATION FOR AUTHORS

The IEEE TRANSACTIONS ON MAGNETICS is published 12 times per year. Submitted manuscripts should be in areas of science and technology related to the basic physics of magnetism, magnetic materials, applied magnetics, and magnetic devices.

The articles in this journal are peer reviewed in accordance with the requirements set forth in the IEEE PSPB Operations Manual (sections 8.2.1.C & 8.2.2.A). Each published article was reviewed by a minimum of two independent reviewers using a single-blind peer review process, where the identities of the reviewers are not known to the authors, but the reviewers know the identities of the authors. Articles will be screened for plagiarism before acceptance.

Corresponding authors from low-income countries are eligible for waived or reduced open access APCs.

The TRANSACTIONS is available electronically on IEEE Xplore, <http://ieeexplore.ieee.org/>

The IEEE TRANSACTIONS ON MAGNETICS publishes articles in the following five categories:

- 1) Classics in Magnetism—republications of articles that represent important landmarks in the development of magnetics.
- 2) Advances in Magnetism—technical articles providing critical reviews of current topics by noted experts.
- 3) Contributed Papers—unsolicited technical articles of archival value, typically less than 15 printed pages in length.
- 4) Communications—short technical articles of archival value, limited to a maximum of four printed pages in length. Communications are not intended to report preliminary work.
- 5) Selected Conference Papers—technical articles of archival value in connection with certain magnetics related conferences. Authors submitting papers in this category must follow specific instructions provided by special conference guest editors and send their manuscripts directly to those editors.

*Procedure for Submitting a Contributed Article:* An IEEE style guide, Information for Authors, and other author tools are available at [http://www.ieee.org/publications\\_standards/publications/authors/authors\\_journals.html](http://www.ieee.org/publications_standards/publications/authors/authors_journals.html). For detailed instructions on the preparation of papers, scroll down to “Word Template for Transactions on Magnetism” and download either TRANSMAG.DOC or TRANSMAG.PDF. All manuscripts should be submitted electronically on Manuscript Central, <https://mc.manuscriptcentral.com/transmag-ieee>. English language editing services can help refine the language of your article and reduce the risk of rejection without review. IEEE authors are eligible for a 10% discount at American Journal Experts; visit <http://www.aje.com/go/ieee/> to learn more. Please note these services are fee-based and do not guarantee acceptance. Authors encountering problems should contact [transmag@ieee.org](mailto:transmag@ieee.org).

*ORCID Required:* All IEEE journals require an Open Researcher and Contributor ID (ORCID) for all authors. To create an ORCID, please visit: <https://orcid.org/register>. The author will need a registered ORCID in order to submit a manuscript or review a proof in this journal.

*Author Names in Native Languages:* IEEE supports the publication of author names in the native language alongside the English versions of the names in the author list of an article. For more information, please visit the IEEE Author Center at <https://journals.ieeeauthorcenter.ieee.org/create-your-ieee-journal-article/create-the-text-of-your-article/publishing-author-names-in-native-languages/>.

*Graphical Abstract:* This journal accepts graphical abstracts and they must be peer reviewed. For more information about graphical abstracts and their specifications, please visit the following link: [http://www.ieee.org/publications\\_standards/publications/graphical\\_abstract.pdf](http://www.ieee.org/publications_standards/publications/graphical_abstract.pdf).

*Open Access:* This publication is a hybrid open-access journal. For a fee of \$2,045, authors have the option of making their articles freely available under open access. Details are available at <http://mc.manuscriptcentral.com/transmag-ieee>.

*Page Charges:* IEEE TRANSACTIONS ON MAGNETICS does not solicit page charges. Authors may order reprints; detailed instructions will accompany the galley proof. Color printing is available for a charge of \$275 per figure. The corresponding author of the article will have the opportunity to address the color-in-print option during an “Article Setup” step. All invoices and payments are handled through an automated payment portal system. The payment portal allows various payment types such as credit card, bank wire transfers, check, pre-approved waivers, special payment circumstances, and third party billing. Please note that split payments are not supported at this time. If you have any questions, please contact [oaprocessing@ieee.org](mailto:oaprocessing@ieee.org) for Open Access processing and reprints@[ieee.org](mailto:ieee.org) for all other charges. There is no charge for color figures in the electronic version.

*Copyright:* It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright Law, authors are required to sign an IEEE Copyright Form before publication. This form, a copy of which appears at <http://www.ieee.org/documents/ieeecopyrightform.pdf>, returns to authors and their employers full rights to reuse their material for their own purposes. Authors will be required to file a copyright form electronically when their paper is submitted for publication.
